Ausbau	stainless steel tank
Mostgewicht	19.5° KMW
Alkohol in %	13
Säure in g/l	6.9
Restzucker in g/l	2.6
Trinktemperatur	12°C

What does schist do to Grüner Veltliner grapes? Well, once ripe they are furnished with an incredible amount of mineral tones and firm spiciness. Grown on a soil that is normally exclusively reserved to great Rieslings, this wine is for me one of the most interesting ones to make.
