must weight	19.5° KMW
alcoholic content %	13
acidity g/l	5.7
residual sugar g/l	1.0
drinking temperature	12°C

Strassertal valley winds its way between Gaisberg hill and Wechselberg hill. The latter is more to the east and slightly higher. Our Wechselberg vineyard overlooking the whole picturesque Kamptal valley is one of the best ones Strass has to offer. The hillside is fully oriented towards the south and boasts soils like gneiss, schist and different layers of quartzite, marble and amphibolite – perfect conditions for elegant yet powerful Veltliners or great Rieslings with pronounced terroir notes.
