alcoholic content %	12
acidity g/l	5.2
residual sugar g/l	5.8
drinking temperature	11°C

AT-BIO-402
EU-Landwirtschaft

Gaisberg vineyard: primary rock, volcanic slate

Placher vineyard: sandy gravel soil

Stangl vineyard: sandy loess

What these vineyards have in common are two things: They lie 290 m (950 ft) above sea level and have perfect conditions for Riesling wines with a clear character. Gaisberg stands for pronounced mineral tones, Placher for a crispy acidity and Stangl for density and elegance. When vinified together
